

# POSH PERFECTION

Indulge yourself with the elegantly  
luxurious Victoria & Albert volcanic  
limestone bathtubs

Continuing to gain international recognition for its freestanding bathtub designs and fresh from winning the 2010 GOOD DESIGN award, the luxurious British label Victoria & Albert represents the next evolution in bathtubs for the modern bathroom.

Victoria & Albert specialises in creating the perfect baths, bridging the gap between art and functionality and all this is made possible by the highly durable material known as QUARRRYCAST.

With its amazing thermal properties, this blend of finely ground volcanic limestone and high performance resins

takes the visual and tactile appeal of tubs to a higher level. Warm to the touch and naturally insulating, this compound keeps bathwater at just the right temperature, allowing for longer, more relaxing bathing moments.

Naturally white, scratch resistant and renewable, Victoria & Albert's one-piece, hand finished tubs are exceptionally strong, won't creak or flex and are easily drillable on-site, making customised installations a breeze.

As the stone-rich alternative to both cast iron and acrylic, this world class material allows large and complex shapes to be

OPPOSITE PAGE: The Toulouse is a deep, double ended bateau bath that features a streamlined built-in overflow - a first for Victoria & Albert.

THIS PAGE: The Amalfi features softly contoured sides that descend gracefully to the floor uncluttered by waste pipe work and an extended backrest that provides full head support.

The ios is aimed at the urban city apartments and en-suites where space is at a premium.

cast in one flowing, seamless piece and is backed with a 25-year domestic warranty.

The creative team at Victoria & Albert continues to push the envelope, producing new shapes and designs that do not compromise beauty and performance, hoping to bring a piece of art to your home be it contemporary or traditional.

Strikingly elegant and superbly functional, the complete collection by Victoria & Albert is packed with inspirational designs created to provide every personal bathroom experience imaginable. Offering a full line of options that include soaking tubs, clawfoot baths, airspa and freestanding tubs, the entire range is available to compliment the classic, the contemporary as well as the premium design styles.

Its new collection of tubs, the Toulouse, is the first Premium range tub to carry a classical design demeanour. Inspired by the French double-ended bateau baths first seen in the 1860s, Toulouse uses QUARRYCAST instead of dealing with the impracticalities of the traditional tinned copper which the original baths used. Its elegant design is ideal for those who want a more traditional look that suits a contemporary setting.

Victoria & Albert's Premium baths range include the Ravello, Amalfi and ios series, all accompanied with matching basins, as well as the Napoli, which was boldly conceived as a low slung single piece of shell, offering the simplicity of rimless bathing combined with extreme comfort and a low step-in height.

As the ultimate statement in quality and style, the Victoria & Albert prestigious bath line highlights uniqueness by incorporating different sets of features like full head support, low step-in height and side by

The Toulouse bath is 1815mm long, 800mm wide and 717mm deep and is perfectly complemented by Victoria & Albert's Tubo range of European-designed brassware.

The Ravello bath effortlessly combines bold lines with gentle curves.

side bathing for two people, making bath time an unbelievably comfortable process.

Believing that bathing experiences and lifestyles go hand in hand, every Victoria & Albert bathtub aims to add sophistication and elegance to any bathroom. 🌐
