NEW BATHROOM IDEAS FROM SALONE DEL MOBILE 2016 IN MILAN

Cielo presented many exciting new bathroom ideas at the recent Salone del Mobile fair in Milan!

Cielo pushes the boundaries of design by launching a suite of exclusive luxury sanitary wares in 16 different colour finishes. In addition, their new range of bathroom furniture solutions using ceramics has captured the hearts of Architects and Designers all over.

The invention of colours

CIELO rediscovers colour. Modern and clean shapes are modelled on new chromatic effects for which nature serves both as source of inspiration and idea for change; a shimmering reality that reveals and hides, and gives every architectural design a new dimension.

The design research conducted in recent years has contributed to an up-to-date and constantly renewed collection, new chromatic experiments and surfaces with completely new ceramic glazes, used by CIELO in unique combinations of colours and surface textures.

The traditional chemical composition of the glazes, formed by mixtures of raw materials as quartz, feldspar, zinc and kaolin, rendered opaque by the addition of tin oxide and zirconium silicate, is declined in a rich chromatic range, which may be enriched over time with new shades designed to meet the specific requirements of the individual client.
